

TOP PHP STUDIO

Top PHP Studio is an ***Integrated Development Environment (IDE)*** for PHP. Top PHP Studio provides comprehensive and easy-to-use solution for editing, testing and deploying PHP based web applications.

Main features of Top PHP Studio includes:

- Internal HTTP server runs PHP code without a need for an external server.
- Internal browser for previewing the output of scripts
- Function and parameter completion for built-in PHP functions
- Configurable syntax highlighting for PHP, HTML, XML, SQL, Cascading Style Sheets (CSS), JavaScript, PHP, Python, and Java
- Built-in FTP client enables opening and editing scripts directly from remote servers
- Code explorer
- Project based management
- Syntax checking for PHP code
- File explorer enables quickly accessing local file system
- Visual file comparison utility
- HTML tag completion
- Code snippets for CSS and HTML tags
- Tabbed multiply document interface
- Automatic backup when saving files
- Automatic parentheses highlighting

Top PHP Studio is distributed on "*try before buy*" basis and "*trial version*" can be freely evaluated for 30 days. If you wish to continue using Top PHP Studio beyond the trial period, you must pay the registration fee which is \$39 USD (or equivalent in other major currencies) for personal usage.

Registered users are entitled to receive:

- Fully functional version of Top PHP Studio
- One year free subscription for all major and minor updates/upgrades of Top PHP Studio
- Free priority technical support via e-mail

Please do not hesitate to contact us for any issue related with Top PHP Studio. Any feedback is appreciated.
